

TUSAYAN

20

The first part of the paper discusses the importance of the study and the objectives of the research. It highlights the need for a comprehensive understanding of the subject matter and the role of the researcher in this process. The second part of the paper presents the methodology used in the study, including the data collection methods and the analysis techniques. The third part of the paper discusses the results of the study and the conclusions drawn from the findings. The final part of the paper provides a summary of the key points and offers suggestions for future research.

The study was conducted in a systematic and rigorous manner, following the principles of scientific research. The data was collected from a large sample of participants, and the results were analyzed using advanced statistical techniques. The findings of the study are presented in a clear and concise manner, allowing for a thorough understanding of the subject matter. The conclusions drawn from the findings are based on a careful analysis of the data and are supported by the results of the study.

The study has several limitations, which are discussed in the paper. These limitations include the sample size, the duration of the study, and the potential for bias. Despite these limitations, the study provides valuable insights into the subject matter and contributes to the existing body of knowledge. The findings of the study are discussed in the context of the current research and are compared with the results of other studies in the field.

The paper concludes with a summary of the key points and offers suggestions for future research. It emphasizes the need for further studies to explore the subject matter in greater depth and to address the limitations of the current study. The paper also highlights the importance of the study and the role of the researcher in this process.

The Annual Staff Presents The
1969 Tusayan

Williams High School
Williams, Arizona

Viki LaRue, Editor

I would like to thank the students who worked on the yearbook for their time and hard work. They worked hard at making a successful annual.

I would also like to thank the Woman's Club for the scholarship that I received.

The most credit for the yearbook should go to our sponsor, Mr. Richardson, for the time and patience that he has put into the yearbook. If it weren't for Mr. Richardson, we wouldn't have had an annual.

Viki LaRue
Editor-in-chief 1969

The Tusayan staff would like to present the yearbook of 1968-69, in hopes that you will enjoy it as much as we have enjoyed working on it.

SCHOOL SPIRIT

Spirit is something that every school needs and should have. Spirit raises the morale of the boys in sports and gives the school something that everyone can and should participate in. School spirit is something that makes all the boys in sports feel like the school is backing them up. Spirit is something that you can't be conservative about. You have to let yourself go and give all your spirit to W. H. S.

School life and School spirit are many different things.

In Memorial

In silent memory to all servicemen who have served their country now and in the past and those who will serve in the future, this page is set aside to honor them.

Their spirit has served to guide the theme and thinking of our yearbook.

Pamona Glee Club Presents A Winter Assembly

*Assemblies Help
School Spirit By
Breaking Routine.*

The Pamona Glee Club of California presented an excellent vocal program on February 4. The numbers, which ranged from light to serious, were well received by the students. The program was divided into four parts-girls, boys, mixed, and a male quartet which is not pictured.

We're pretty well equipped to do it. For here, at Arizona Public Service, is where we think you'll find opportunity knocking. We're looking for young people to fill our ranks. People with imagination and drive to meet the challenging demands of the future. People in all phases: engineering and imagineering, sales, data processing, business administration and electronic applications. But most of all we desire people with a strong sense of responsibility to the community in which they live.

We call them the bright people.
